East Chicago sequential - master 12 1 16.xlsx

Attached is a spreadsheet summarizing the data collected to date in East Chicago. My apologies for the delay. Tomorrow we can talk more about getting you actual lab reports or data in other formats.

In addition, Dean Maraldo summarized the data and I am sharing it below.

Subject: USS Lead Data Summary

All: here's a quick summary of results for USS Lead sequential sampling. Note that we still have no validated data for Zone 3 properties. New schedule from Superfund has first validated results for Zone 3 coming in on Dec. 9, with additional sets due Dec. 16 and Dec. 23.

So far, 54% of properties sampled, pre-excavation, have at least one sample with lead above action level [66% for Zone 3 and 25% for Zone 2].

We do have validated data for Zone 2 which confirmed the reliability of preliminary data. This applies to Zone 2 only as different labs were used for Zone 3.

USS Lead Sequential Sampling Result Summary 11/30/2016 Draft	Zone 2		Zone 3		Total
